

Maths

This term we will develop our mathematical understanding even further. We will take our understanding of problem solving, fluency and reasoning and apply it to more complex topics such as ratio and proportion, fractions, decimals and percentages.

English

During the first half term we will be writing to inform. We will use the themes from Inquiry and Science as a stimulus to write biographies and explanation texts. After half term, we will explore a range of texts which revolve around the theme of Oceans to support short story writing.

Science

Our theme is 'Earth and Space' this term. We will be learning about all of the planets and our solar system as well as learning about Space Exploration and famous Astronauts.

Inquiry

Our theme for our Inquiry topic will be Coasts and Oceans. We will be studying the human and physical geography of coastlines. This will include learning about geological features, different types of oceans around the world, including their wildlife, as well as how beaches and coastlines are used and have been used historically.

Spring 2018

Redwood Class

Year 5/6

RE

Through our Discovery RE programme, the children will be investigating the question, 'How far would a Sikh go for his/her religion?'

PE

With Miss Forster we will be playing Netball and we will also have a session with ProCoach each week.

PSHE
